

# ASHRITH RAO PR

Frontend Web Developer | React JS

Bengaluru, India | 9380388242 | raoashrith16601@gmail.com | [GitHub](#) | [Portfolio](#)

## PROFESSIONAL SUMMARY

---

Frontend Web Developer skilled in React JS, JavaScript, and modern responsive UI development, with hands-on project experience building component-based web applications using hooks, state management, and API integration. Brings 4+ years of professional web development experience — including pixel-perfect, cross-browser front-end builds for enterprise pharma clients — translating designs into clean, performant, production-ready code. Currently completing MCA (result declared; final project and certificate in progress).

## SKILLS

---

**Languages & Core:** HTML5, CSS3, JavaScript, jQuery

**Frameworks/Libraries:** React JS (Hooks, Component Architecture, State Management), Express JS

**CMS / Enterprise Tools:** Adobe Experience Manager (AEM), CodeStudio, ContentStudio

**Design Tools:** Adobe Photoshop, Canva

**Other:** Responsive Web Design, Cross-browser Testing, REST API Integration, Git & GitHub

## WORK EXPERIENCE

---

### Junior Web Developer — Indegene Limited

4 yrs 3 mos

#### Email & eDetail Template Development — 3 yrs

- Built 50+ responsive HTML email templates and edetail pages for AMGEN (pharma) clients, reducing production time by 40% through reusable coding modules and standardized workflows.
- Developed and maintained responsive web pages alongside templates, ensuring pixel-perfect UI and cross-browser/cross-client (Outlook, Gmail, mobile) compatibility.
- Collaborated with design and QA teams to convert Photoshop/Canva design files into functional, on-brand HTML/CSS builds within tight client deadlines.
- Debugged and resolved rendering issues across email clients and browsers, improving first-time approval rate for client sign-off.

#### React Component Development — 1 yr 3 mos

- Transitioned from template development into component-based frontend work, building and maintaining reusable React components as part of a team modernizing internal tooling.
- Used AEM (Adobe Experience Manager), CodeStudio, and ContentStudio to build, test, and deploy templates and web content in an enterprise CMS environment.

## PROJECTS

---

### Itinerary Planner — React JS, Express JS

Live: <https://itinerary-project-nine.vercel.app/> | GitHub: <https://github.com/adi7777777>

- Built a full-stack trip itinerary planning app using React (functional components, hooks) on the frontend and an Express JS REST API backend for data handling.
- Implemented reusable, component-based UI architecture with React hooks (useState, useEffect) to manage application state, letting users create, view, edit, and organize itinerary items dynamically.
- Handled client-server communication via REST API calls with loading and error states, and deployed the application on Vercel for live public access.

### Beauty Salon Website — HTML, CSS

- Designed and built a fully responsive multi-section salon website (home, services, gallery, contact) using semantic HTML and custom CSS.
- Focused on clean layout, mobile responsiveness, and consistent visual branding without any framework dependency.

## EDUCATION

---

### Master of Computer Applications (MCA)

2026

Result declared; final semester project submission and certificate in progress.

### Bachelor of Computer Applications (BCA) — Cloud Computing Specialization

2022
